I.T. RETAIL SOLUTIONS

HRK is the leader in installed systems in the retail liquor industry in South Africa. By using an HRK system, you automatically benefit from the combined knowledge of leading liquor chains and wholesales as well as independent liquor retailers. The HRK system will suit any environment from a stand alone liquor store to multiple stores or chains with head office operations.

IMAGINATIVE, INNOVATIVE, YOUR SYSTEM PARTNER FOR THE FUTURE.

POINT OF SALE

LIQUOR SYSTEMS

Linked to the HRK centurion Stock Control Software, the system offers a powerful tool for the owner to effectively control purchases, sales and stock. HRK Debtors, Creditors and invoicing modules are available as options.

The HRK interface to third party payment facilitators allow for speedy processing of credit and debit card transactions and the downloading of recharge vouchers for prepaid cellphone users.

Multiple pricing structures are available to enable users to sell at retail or wholesale prices, with automatic discount facilities and price override features. The HRK system also allows for the sale of multi-packs via a single stock code, and can therefore accommodate the full spectrum of barcode scanning from single units to pack sizes or shrink wrap codes.

The HRK system can be linked to the HRK loyalty software allowing the user to offer incentives to their customers to guarantee repeat purchases at their stores.

The HRK system interfaces to accounting packages such as Pastel or Accpac.
